S U M M A R Y

Final-year Information Technology student specializing in Data Science. Experienced in OCR data preparation and data annotation for AI training, with additional background in full-stack development, project management and leadership. Skilled at turning raw data into clear, actionable insights using Power BI, MySQL, and Python, and comfortable contributing across development, data, machine learning, artificial intelligence, and technical operations tasks. Seeking the job and internship to apply these skills in a real-world team environment.

E D U C A T I O N

Bachelor of Science in Information Technology

2023 - Present

Stamford International University | GPA: 3.96

Scholarship Receipient, awarded based on academic merit and outstanding performance

High School Equivalency | GED

Completed in May, 2023

T E C H N I C A L S K I L L S

Data & Database: Power BI, MySQL , Oracle APEX, Excel, Data Analytics, Data Mining, Database Management

Programming Languages: Python, Java, PHP, Laravel, Vue.js, HTML, CSS, JavaScript

Tools & Platforms: Git/GitHub, VS Code, Eclipse, AWS Cloud Foundations, WIndows, Linux, Antigravity, Figma, AI Studio Rapid Miner, Tableau, Tailscale , Computer Vision Annotation, Canva, Capcut

Core Skills: Project Management, Team Leadership, Time Management, Critical Thinking, Effective Communication, Adaptability

C E R T I F I C A T I O N S

- Java Foundations (Oracle Academy)
- Data Analytics Essentials (Cisco Academy)
- Data with Power BI & Excel (Coursera)
- Python Programming Fundamentals (Coursera)
- Database Management (Oracle Academy)
- AWS Cloud Foundations
- Git & GitHub (Creative Coder)
- Vue Laravel Full-Stack Deployment (Creative Coder)
- Graphic Design and Canva Essentials (Canva)

EXPERIENCE & PROJECTS

Data Annotation & Preparation Specialist | Freelance March 2026 - Present

- Prepare and annotate datasets used to train AI models, including labeling, tagging, and data cleaning
- Perform OCR-based data extraction and verification to convert raw documents into structured data
- Check data quality and consistency to ensure accuracy of labeled datasets and data bindings before use in model training

Customer Churn Prediction | Data Science

- Built and compared Logistic Regression and KNN models to predict credit card customer churn, and identifying transaction frequency as the strongest predictors.

Taskiee Task Manager | Website

- Full-stack task management app built with Laravel and Vue.js, planned with a High-Level Design (HLD) document before development.

CineGrid Movie Website | Website

- Responsive front-end movie browsing platform built with HTML, CSS, and JavaScript.

Course Management System | Software

- Java console application applying OOP principles to manage student and instructor course schedules.

AI Skill Gap & Career Recommendation System | LLM & Data Mining (In Progress)

- Building a recommendation system using FP-Growth association mining on 1.3M+ LinkedIn job postings and an LLM layer to suggest the next skill to learn for a target IT role.

VOLUNTEERS

Vice President | TechBridge IT Club Feb 2026 - Present

- Lead and coordinate a cross-functional student team, running regular planning discussions and workshops
- Manage all Instagram content, captions, and digital media assets to grow club engagement
- Design posters, logos, and edited video content for club events

Project Coordinator (Volunteer) | Meridian Education Institute May 2025 - Aug 2025

- Coordinated educational projects and webinars with a focus on student impact
- Managed communication between team members and partner organizations
- Collaborated with other non-profit organizations to plan project together

Developer (Volunteer) | Astetude Design Studio Nov 2024 - Mar 2025

- Participated in a hackathon-style project to design and build a habit-tracking web application
- Collaborated with a team across UX/UI designers, frontend and backend developers
